

Round Locker Ends

Unlock humanity with Round Locker Ends that help establish the mood of a workspace.

The space we move around greatly influences our well-being and creative performance. Shapes within that space also play an essential role in establishing the mood of any given workspace. Therefore, it only makes sense to optimise it in the best way possible.

Our Round Locker Ends will help you achieve that purpose. This furniture is usually installed on lockers but can also be installed on other spaces for multiple reasons. They implicitly create a sense of openness, allowing people to collaborate more and be at ease with each other.

Images are indicative only and may include optional decorative features, all dimensions are nominal.
