

Curved Locker Ends

Unlock humanity with Locker Ends that embrace the beauty of curves.

Curves are often designed to soften a furniture's impact, helping them blend well into the surrounding workspace. If you haven't noticed, we instinctively love curvy things - from glasses, phones, to cars. Our eyes are subconsciously drawn into it!

Our Curved Locker Ends will help transform the interior of any workspace into a homely environment where people will enjoy staying in. This piece of furniture reflects a sense of graceful fluidity derived from the softness of nature, which explains why humans feel the connection.

Get this if you need to add a bit more of fluidity into your office fit-out. You can have this installed into your lockers or walls, depending on where you think this will be beneficial the most.
