

2 Tall @EOT

Unlock humanity with lockers that help make cycling more

A sedentary lifestyle across Australia spells bad news for our heart and mental health. Organisations supporting healthy types of transport through EOT facilities are seeing increased staff productivity, optimistic mindset and improved overall well-being.

2 Tall @EOT is a locker that helps make cycling (and the like) more enjoyable. This locker is at 2000mm high, has a 100mm kick base, and comes with a hanging rail for a more comfortable locker experience.

2 Tall @EOT is part of our @EOT locker range that helps organisations manage their end-of-trip facilities in the most efficient manner. Supporting an active lifestyle within the community in general
