

2D@1500

Unlock humanity with lockers that are made to improve

Our minds are beautifully brilliant machines - but they don't run efficiently without proper attention and care. 2D@1500 is one of our @work lockers that have been mindfully designed to help promote productivity in the workplace through space-efficiency and secured storage solutions.

'Worry less about your possessions, concentrate more on your work' is the idea we'd like to stimulate for its users. These lockers are not just customisable boxes that people can put stuff on. A locker like 2D@1500 provides convenient access to their belongings, and a personal space they can control and completely trust on.
