

Locker Control End Panel

Unlock humanity with a modern and reliable smart locker system

The Locker Control End Panel gives you more control in a highly convenient management system as far as smart lockers can go. This additional feature facilitates the functionality of your lockers and complements the whole process flow - making it more comfortable, efficient, and contributing to the overall design.

The Locker Control End Panel, as the name suggests, are locker controls placed on an end panel where the electrical and cable elements are accommodated securely. Dimensions are made to match the lockers and are thoughtfully designed to provide simple and seamless user experience.

You need this if you want to step up in
