

Premium Iron @EOT

Unlock humanity with premium ironing units that make ironing

Not all EoT facilities have the luxury of space to fit in all equipment and accessories. That is why we've designed Premium Iron @EoT to address this and help its users start their work day with perfectly ironed apparel.

Premium Iron @EOT is a space-saving equipment that makes ironing totally easy and safe to use. What's great about this is that the board can be twisted and rotated 180 degrees so that it accommodates both left-handed and right-handed people. It minimises obstruction and passage, and adds an extra layer of comfort and safety through its provided ventilation.

Premium Iron @EOT is the perfect choice
